4. General Information

We ask you to read this manual thoroughly and completely and uphold to the given instructions. During the development we focused on safety, ease of use, design, innovative development, etc, to guarantee a high quality product for the consumer. Despite the greatest care improper installation and using or incorrect operation can result in material damages. Depending on the product and its purpose it may be necessary to check the legal requirements of the country before commissioning. To receive consideration for warranty claims the product hast to be send back with its original package, the proof of purchase and an error description. Please note the returns policies. The warranty regulations apply. The warranty claim and the operating permit expire through: unauthorized modification of the product, own repairing, violent impacts, improper use, opening the case.

5. General Remarks

Please note, that the Active Sound System is not approved for road use.

The Images and Content shown in this installation guide only serve as a help for you. Please remove the covers according to the repair manual of the respective manufacturer.

6. Installation location

Step 1)
Please open the trunk and remove the cover on the left side.

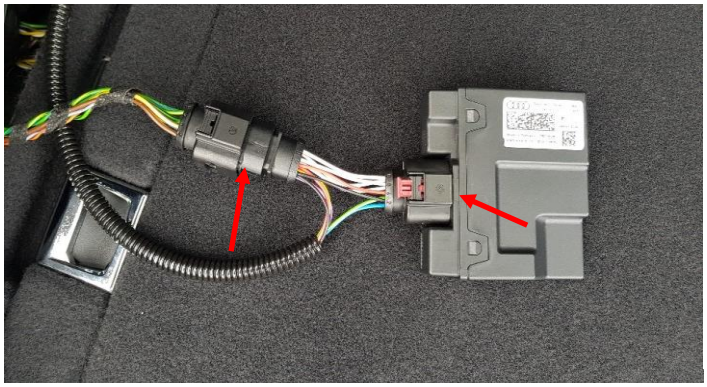

Step 2)
Locate the original control unit for engine noise generation and disconnect the connection cable.

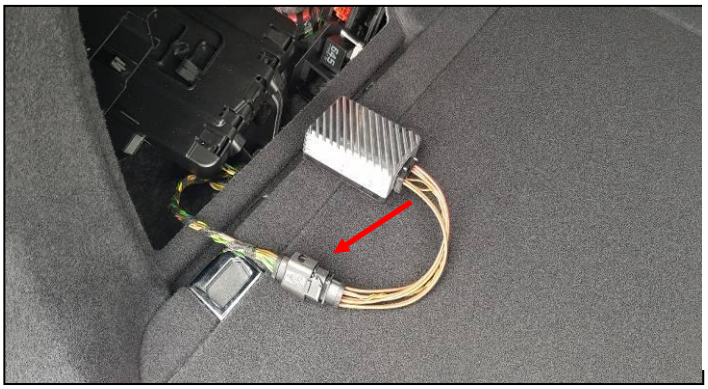

7. Active Sound Gateway

Our Active Sound Gateway is simply plugged Plug&Play between the control unit and the original wiring harness.

8. Active Sound Unit

Our Active Sound Unit is connected to the wiring harness instead of the original Audi control unit, and replaces the Audi control unit Plug&Play.
